RE: Site Inspection, Summo USA Corporation, Lisbon Valley Copper Project,
M/037/088 (UTU-72499), San Juan County, Utah

Date of Inspection: November 2, 1995
Time of Inspection: 9:45 - 11:00 a.m.
Conditions: Clear skies, cool temperatures
Participants: Tony Gallegos, DOGM

Purpose of Inspection: To examine the existing disturbances relative to the large mine proposal, recently submitted by Summo.

This inspection consisted of mainly driving to the various portions of the site and taking photographs for future reference. The first area visited was the Centennial Pit. Photographs were taken looking to the north and the east. These photos include some of the old concrete foundations which were part of the old processing facilities. The next area visited was the Sentinel Pit. Photos were taken of this pit and also looking south towards the Centennial area. The next area visited was the GTO Pit. Several photos were taken of this pit from different vantage points.
